

About the Library

The Lake Travis Community Library was founded in 1985 and shared a space with the Lake Travis High School Library for over 20 years. In May 2004, voters approved the formation of the Lake Travis Community Library District as a means to create public funding for a regional library. The library district includes Hudson Bend, Lakeway, The Hills, Apache Shores, and Briarcliff.

In March 2011, the library received a generous donation of land from Haythem Dawlett in the Tuscan Village development. The new library opened in February 2013. The 11,000 square foot building includes a meeting space for community use, dozens of public computers, a teen room, study tables, a book sale area, a coffee bar, a patio, and ample space for children's programming.

In an effort to better serve our community, the library also provides a bookmobile and homebound delivery service to members who live within the library district. For more information, please visit our website.

Library Mission

The Lake Travis Community Library provides resources in the areas of the arts, sciences, and literature in order to enable free and open access for lifelong learning, inspiration, and enjoyment to all residents of the Lake Travis Community Library District and its surrounding areas.
